Re: WC Docket No. 14-58

2015 ETC Annual Report of Southeastern Indiana Rural

Study Area Code 320819

Dear Ms. Dortch:

On behalf of Southeastern Indiana Rural ("SEI"), JSI files the attached confidential and redacted versions of the FCC Form 481 ETC annual reporting information pursuant to sections 54.313 and 54.422 of the Commission's rules. SEI seeks confidential treatment under Protective Order for section 54.313(f)(2) financial information. The redacted version is also being filed this date via the FCC's Electronic Comment Filing System. In addition, attached is a letter requesting confidential treatment under Sections 0.457 and 0.459 459 of its Progress Report on its Five-Year Service Quality Improvement Plan as required by Section 54.313(a)(1).

Please direct any questions regarding the filing to the undersigned.

Sincerely,

John Kuykendall
JSI Vice President

301-459-7590

Re: WC Docket No. 14-58

2015 ETC Annual Report of Southeastern Indiana Rural

Study Area Code 320819 Request for Confidentiality

Dear Ms. Dortch:

John Staurulakis, Inc. ("JSI"), on behalf of its client Southeastern Indiana Rural ("Company") hereby requests, pursuant to Sections 0.457 and 0.459 of the Commission's rules, withholding from public inspection certain information contained in an attachment to the above referenced reporting requirement. The Company provides the following in support of its request, numbered consistent with the subparagraphs of Section 0.459(b).

- 1. The information for which the Company is seeking confidential treatment is an attachment to the Company's annual reporting information pursuant to Sections 54.313 and 54.422 of the Commission's rules ("Report").³
- 2. Pursuant to Section 54.313(a)(1), Rate-of-Return Eligible Telecommunications Carriers ("ETCs") must file with the Commission a Progress Report on its Five-Year Service Quality Improvement Plan ("Progress Report") which is contained in the attachment to the 2015 Report.⁴
- 3. The information contained in attachment for which the Company seeks the withholding from public inspection is the entirety of data pertaining to the Company's Five-Year Plan provided at FCC Form 481 Line 112 attachment. Information of this nature is confidential commercial information routinely withheld from public inspection.

¹ 47 C.F.R. §§ 0.457, 0.459.

² 47 C.F.R. § 0.459(b)(1) through (9).

³ 47 C.F.R. §§ 54.313, 54.422.

⁴ 47 C.F.R. §§ 54.313(a)(1).

4. With respect to identifying the degree to which the subject attachment concerns a service that is subject to competition, the information is of a financial and competitive nature regarding the provision of telecommunications services. The Line 112 attachment contains competitively sensitive information related to proposed improvements or upgrades and maintenance the Company's network.

In its *March 5*, 2013 Order, the FCC. The FCC specified that for rate-of-return carriers, the five-year plans "should describe the carrier's network improvement plan, which should provide greater visibility into current plans to extend broadband service to unserved locations in rate-of-return service territories." The Company's Progress Report updates this information as well as provides maps and detailed information as to whether or not network improvement objectives were achieved at the wire center level. Accordingly, because the Company is a rate-of-return carrier, it must file Progress Reports which contain proprietary, competitively sensitive information related to the Company's existing network including the specific locations of customers as well as describe proposed improvements or upgrades and maintenance of its network throughout its service area. Specifically, this information sets forth services provided by the Company over its existing network including specific locations of customers as well as planned network improvement and maintenance for the years 2015 through 2019 including project start and completion dates, population that will be impacted by the improvements and upgrades at the wire center level and projected capital costs associated with the improvements and upgrades and operating costs associated with maintaining the network including depreciation for investments that have already been made. As such, this information contains competitively sensitive information related to the Company's existing network as well as detailed plans at the wire center level for network upgrades and maintenance projected for the years 2015 through 2019.

- 5. With respect to identifying possible exposure to competitive harm, the information contained in the Line 112 attachment is information that is not customarily released to the public. This information is proprietary to the Company, is unique to the Company's serving territory and is only known to the Company and its authorized agents. If the Information is not protected, it would have economic value to potential competitors who would be able to target their marketing to specific customers. In a competitive telecommunications marketplace, this type of information is highly sensitive. If publicly disclosed, it would enable competitors to craft business plans that capitalize on their knowledge of the locations of the Company's customers which would place the Company at a competitive disadvantage.
- 6. With respect to steps the Company has taken to ensure against unauthorized disclosure of the information contained in the attachment, the Company is filing

⁵ See Connect America Fund et al., WC Docket 10-90 et al., Order, DA 13-332 (rel. Mar. 5, 2013) ("March 5, 2013 Order") at para 9 citing Section 54.202(a) (1) (ii).

the attachment under seal. The Company uses the information contained in the Five-Year Plan to ensure that its customers continue to receive state-of-the-art high quality telecommunications and broadband services that the Company has been providing to them for many years as well as to satisfy mandatory reporting requirements and does not share the information for which protection is sought. The Company protects the secrecy of this information with a security protocol that ensures the information is not inadvertently disclosed or disseminated. Only directors, managers and employees with a direct need to know are authorized to access the information.

- 7. Any previous versions of this information are not publicly available.
- 8. Because the information is not routinely available, a need exists for maintaining the confidentiality of this information permanently.
- 9. Not applicable.

Based on the preceding, JSI respectfully requests on behalf of the Company that the Commission grant confidential treatment under Section 0.459 to Company's Five-Year Plan provided at FCC Form 481 Line 112 attachment.

Please contact the undersigned with any questions regarding this request.

Sincerely,

John Kuykendall JSI Vice President

SEI Rural Telephone Cooperative Inc.'s demonstration of complying with applicable service quality standards and consumer protection rules for voice and broadband services:

In establishing this certification in its 2005 ETC Order,¹ the FCC found that an ETC must make "a specific commitment to objective measures to protect consumers." ² The Commission found that for wireless ETCs, compliance with CTIA's Consumer Code for Wireless Service would satisfy this requirement" and that the sufficiency of other commitments would be considered on a case-by-case basis. ³ In this context, the FCC stated, "to the extent a wireline or wireless ETC applicant is subject to consumer protection obligations under state law, compliance with such laws may meet our requirement." ⁴

SEI Rural Telephone Cooperative Inc. ("Company") hereby certifies that it is complying with applicable service quality standards and consumer protection rules. The Company is subject to consumer protection obligations under the Indiana Code (IC) and Indiana Administrative Code (IAC). These obligations include, but are not limited to, the following: (1) adherence to Indiana state consumer protection requirements governing telephone providers which include Quality of Service rules as identified in IC 8-1-17.5-24, and Compliance with Anti-Slamming and Anti-Cramming Procedures as adopted in

¹ Federal-State Joint Board on Universal Service, CC Docket No. 96-45, Report and Order, FCC 05-46 (rel. Mar. 17, 2005) ("2005 ETC Order").

² *Id.* at para. 28.

³ *Id.* The FCC noted that under the CTIA Consumer Code, wireless carriers agree to: "(1) disclose rates and terms of service to customers; (2) make available maps showing where service is generally available; (3) provide contract terms to customers and confirm changes in service; (4) allow a trial period for new service; (5) provide specific disclosures in advertising; (6) separately identify carrier charges from taxes on billing statements; (7) provide customers the right to terminate service for changes to contract terms; (8) provide ready access to customer service; (9) promptly respond to consumer inquiries and complaints received from government agencies; and (10) abide by policies for protection of consumer privacy." *Id.* at n. 71.

IC 8-1-29-5, Rule 1.1 170 IAC 7-1.3-8.1; (2) truth-in-billing requirements as required in Rule 1.3 170 IAC 7-1.3-6; and (3) CPNI, Red Flag Rules and other applicable federal and state requirements governing the protection of customers' privacy.

In addition, the Company is subject to consumer protection obligations for broadband services under federal law. These obligations include, but are not limited to, the following: public disclosure of accurate information regarding network management practices, performance, and commercial terms of broadband internet access services; as a means of providing sufficient information for consumers to make informed choices regarding use of such services, and for content, application, service and device providers to develop, market, and maintain internet offerings as specified in F.C.C. 47 C.F.R. Part 8 §8.3. The Company furthermore will comply with all requirements set forth in the 2015 Open Internet Order when it becomes effective.

SEI Rural Telephone Cooperative, Inc.'s demonstration of ability to function in emergency situations for voice and broadband services:

SEI Rural Telephone Cooperative, Inc. ("Company") hereby certifies that it is able to function in emergency situations as set forth in the Code of Federal Regulations, Title 47, Part 54, Subpart C, §54.202(a)(2)¹ and Rule 1.2, 170 IAC 7-1.2-18 of the Indiana Administrative Code. The Company's network is designed to remain functional in emergency situations without an external power source, is able to reroute traffic around damaged facilities, and is capable of managing traffic spikes resulting from emergency situations as required by Section 54.202(a)(2). The Company can change call routing translations as needed to reroute traffic around damaged facilities. Changing call routing translations will also allow the Company to manage traffic spikes throughout its network, as emergency situations require.

Specifically, each central office building is supplied with standby generators and battery back-up that enable the central office to keep running until power is restored so long as fuel is available, or until system changes are made to reroute traffic. In accordance, and compliance, with Rule 1.2, 170 IAC 7-1.2-18, all switching offices or equivalent with installed emergency power generating equipment have a minimum of three (3) hours battery capacity; switching offices or equivalent without installed

Section 54.202(a)(2) requires ETCs that are designated by the Commission to "demonstrate its ability to remain functional in emergency situations, including a demonstration that it has a reasonable amount of back-up power to ensure functionality without an external power source, is able to reroute traffic around damaged facilities, and is capable of managing traffic spikes resulting from emergency situations."

emergency power generating equipment have a minimum battery capacity of five (5) hours.

The company's standby generators and battery back-up support both voice and broadband network equipment in the event of an emergency situation.

| | Section | II | |
| | Revised Sheet | 2 | |
| GENERAL RULES AND REC | GULATIONS | | |

A. ESTABLISHMENT AND FURNISHING OF SERVICE

1. Application for Service

Application for service shall constitute a contract when accepted verbally or in writing by the Telephone Company or upon the establishment of service. The initial minimum period for which service charges shall apply will be one (1) month or more or as otherwise may be specified elsewhere in the Tariffs of the Telephone Company. An applicant who has no previous account with the Telephone Company, or whose financial responsibility is not a matter of common knowledge may be required to make an advance payment at the time application is made, plus the service connection, installation, or construction charges that may be applicable. The advance payment will be applied to the first bill rendered to the customer by the Telephone Company. Security deposits may also be required of certain residential or business customers in amounts and under conditions prescribed in the Rules and Standards of Service currently in effect, revised, or as amended from time to time by the Public Service Commission of Indiana.

The Telephone Company reserves the right to refuse service to any applicant who is found to be indebted to the Telephone Company for service previously rendered until satisfactory arrangements have been made for payment of such indebtedness. Any authorized change in rates and regulations will become effective without further notice.

2. Telephone Numbers

The customer has no property right in the telephone number and the Telephone Company may change any number at any time due to sound business reasons. The Telephone Company agrees to notify its customers, with as much advance notice as possible of its intentions to change or assign its customers new telephone numbers.

3. Alteration of Premises

The customer agrees to notify the Telephone Company promptly whenever alterations or new construction on premises owned or leased by him will necessitate changes in the Telephone Company's wiring and equipment; and the customer agrees to pay the Telephone Company's current charges, if any, for such changes.

4. Responsibility of Customer for Payment

The customer is required to pay all charge for exchange services and facilities, and for toll messages in accordance with provisions contained elsewhere in these Tariffs. The customer is held responsible for all charges for telephone service rendered at his telephone, both exchange and toll.

D. PAYMENT FOR SERVICES AND FACILITIES

Bills are rendered in advance of the service period. Changes for exchange service, long distance service, and auxiliary equipment are due when the bill for such service is rendered (date shown thereon) and becomes delinquent seventeen (17) days thereafter. Penalties for delinquent payments are authorized, but cannot exceed ten percent (10%) of the first three dollars (\$3.00) and three percent (3%) of all additional monies owed, except for charges owed for interstate toll messages. All bills are payable at the Telephone Company's business office or authorized collection agency.

When warranted, in the reasonable judgement of the Telephone Company, special toll bills may be rendered. In such cases the amounts billed are due and payable on demand.

In the event of default on payment of any sums due for either local exchange or toll services the Telephone Company will exercise all options it has at its disposal for collecting past due accounts under the Rules and Standards of Service policies prescribed by the Public Service Commission of Indiana.

E. TELEPHONE DIRECTORIES

1. Distribution

Upon issuance, each customer served by a directory shall be furnished one (1) copy of that directory for each main station or trunk and, upon request, additional directories not to exceed the total number of extension stations furnished under the tariffs. Additional or foreign directories shall be provided by the Telephone Company at a reasonable fee, when available. A current copy of all directories shall be furnished to the Public Service Commission of Indiana.

F. USE OF SERVICE AND FACILITIES

1. Ownership and Use of Equipment

Equipment, instruments, and lines furnished by the Telephone Company on the premises of a customer are the property of the Telephone Company, whose agents and employees shall have the right to enter said premises after securing permission of the occupant, agent, or enforcement officer at any reasonable hour for the purpose of installing, inspecting, maintaining, or repairing the equipment, instruments, and lines, or for the purpose of making collections from coin boxes or upon termination of the service for the purpose of removing such equipment, instruments, lines, and poles.

If the installation and maintenance of service are requested at locations which are or may be hazardous or dangerous to the Telephone Company's employees, to the public or to property, the Telephone Company may refuse to install and maintain such service. If such service is furnished, the Telephone Company may require the customer to indemnify and hold the Telephone Company harmless for any claims, loss, or damage by reason of the installation and maintenance of such service. -16-

F. USE OF SERVICE AND FACILITIES (CONT.)

2. Use of Customer Service

Customer telephone service, as distinguished from public and semi-public telephone service, is furnished only for use by the customer, his family, employees, or persons residing in the customer's household as a member of the family unit and their guests, and may not be resold or otherwise used for performing any part of the work of transmitting, delivering, or collecting charges for any message where any toll or other consideration has been or is to be paid to any party other than the Telephone Company, without consent of the Telephone Company. The Telephone Company has the right to refuse to install customer service or permit such service to remain on premises of a public or semi-public nature when the instrument is so located that the public in general or patrons of the customer may make use of the service. At such locations, however, service may be installed, provided the instrument is so located that it is not accessible to public use.

In the event a customer's service is used by the public or other unauthorized persons, the customer is still responsible for any and all charges originating or billed to his telephone.

3. Use of Party Line Service

Applications for party line service are accepted by the Telephone Company with the understanding that each customer will so use the service as not to interfere with an equitable proportionate use of the service by the other customers on the same line. When the duration or number of local calls sent or received by a party line customer is so great as to prevent an equitable proportionate use of the line by other customers on the line, the Telephone Company shall have the right to require the customer to contract for a higher grade of service or discontinue the service of the customer in question.

4. Tampering with Equipment

The Telephone Company may refuse to furnish or may deny telephone service to any person, firm, or corporation on whose premises is located any telephone equipment owned by the telephone Company which shows any evidence of tampering, manipulating, or operation, or use of any device whatsoever, for the purpose of obtaining telephone service without payment for the charges applicable to the service rendered.

5. Use of Profane Language or Impersonation of Another

The Telephone Company may refuse to furnish or may deny telephone service to any person, firm, or corporation who, over the facilities furnished by the Telephone Company, uses or permits to be used foul, abusive, or profane language; or impersonates or permits others to impersonate any other individual with a fraudulent, malicious, or mischievous intent.

G. CONNECTION OF CUSTOMER-PROVIDED EQUIPMENT (CONT.)

4. Responsibility of Telephone Company

Exchange telecommunication service is not represented as adapted to the use of customer-provided equipment and where such equipment is connected to the Telephone Company's facilities the responsibility of the Telephone Company shall be limited to the furnishing of facilities suitable for exchange telecommunications service and to the maintenance and operation of such facilities in a manner proper for such telecommunication service; subject to this responsibility, the Telephone Company shall not be responsible for (a) the through transmission of signals generated by the customer-provided equipment or for the quality of, or defects, in such transmission, or (b) the reception of signals by customer-provided equipment. The telephone Company shall not be responsible for the installation, operation, or maintenance of any customer-provided equipment obsolete or require modification or alteration of such equipment or otherwise effect its use or performance.

The Telephone Company will provide customers who are known to be using customerprovided equipment with advance notice, whenever possible, of any changes it plans making in its operations which could adversely effect their equipment's operation when it is connected to the Telephone Company's facilities.

5. Violation of Regulations

Where any customer-provided equipment is used with exchange telephone communication service in violation of any of the provisions of this Tariff, or fails to adequately perform network control functions, the Telephone Company will take such immediate action as is reasonably necessary for the protection of the network. The customer, after he has been advised that a violation exists must discontinue use of the equipment from the Telephone Company's facilities. If the violation continues the Telephone Company will notify the customer of the violation in writing. The customer then must confirm in writing within ten (10) days following receipt of the Telephone Company's written notice that he has either corrected the violation or discontinued use of the equipment. Failure of the customer to respond to the warning or correct the problem within the time limit stated above shall result in the suspension of the customer's service until such time as the customer complies with the provisions of the Federal Communications Commission or the Public Service Commission of Indiana's Rules and Regulations governing the Telephone Company's continued obligation in the provision of customer service.
